If yes, please specify the technology/technologies used:

Specify Hardware Technologies

Specify Software Technologies

Which responsible AI principle applies to your project?

(Developers must consider responsible AI development, as all AI models present ethical challenges that must be addressed in conception, development, and deployment)

Please check the categories of responsible and ethical principles of AI that are relevant to your project:

- ☐ Respect Human Rights
- ☐ Enable Human Oversight
- ☐ Enable Transparency and Explainability
- ☐ Advance Security, Safety, and Reliability
- ☐ Design for Privacy
- ☐ Promote Equity and Inclusion
- ☐ Protect the Environment

You can find the guidelines on Responsible and ethical AI principles [here](https://www.intel.com/content/www/us/en/artificial-intelligence/responsible-ai-principles.html)

Please visit: <https://www.intel.com/content/www/us/en/artificial-intelligence/responsible-ai-principles.html>

In light of the responsible AI principles, can you elaborate on the specific measures taken to address ethical and privacy concerns during the planning, development, and/or deployment stages of making your project?

Which of the UN's Sustainable Development Goals (SDGs) aligns best with your project/solution?

(SDGs Drop Down)

Primary SDG (Choose one)

Secondary SDGs (Maximum 3)

Please visit <https://sdgs.un.org/goals> to learn about the UN's 17 Sustainable Development Goals
